or appointment***

### ***BEHAVIORAL ECOLOGY IN ANTHROPOLOGY***

***Goals:***

This course is an introduction to behavioral ecology as it has been applied to topics in anthropology. The goals of the course are to acquaint you with the theoretical perspective, with some of the concepts and models that have proven so productive in studies of animal behavior generally, and with a sample of the accumulating body of work that uses these tools in anthropology. After an introductory discussion we will take up, in turn, a series of substantive topics. Looking first at the concepts and models as tools and at some of the non-human patterns they reveal or explain, and then at applications of the perspective and models to ourselves. The course will be biased toward my research interest in using the behavioral ecology of modern hunter-gatherers and of living nonhuman primates as lines of evidence about human evolution.

***Format:***

Class format is lecture and discussion of questions arising from both readings and lecture.

In addition, you'll get a question each week about the material of the week on which to write a short essay. Your essay should be no longer than one 1.5-spaced typed page. I will not assign grades to these essays but they are required and due as specified - no late papers will be accepted. I'll mark the essays with suggestions to help in preparation for exams. Timely completion of these assignments (done/not) will count toward final grades.

***Exams and Grades:***

There will be three exams, each consisting of two parts: first a bluebook section to be completed in class on the day indicated in the schedule; second, a take-home essay section, to be typed and returned the following day. In advance of each exam I'll hand out a study guide with a list of questions that includes the ones that will appear on the exam. The first exam will count less toward your final grade than the second, and the second less than the final exam. (Approximate weighting: 22% first, 27% second, 32% third; 20% weekly essays).

Students enrolled in 6461 will meet for an additional seminar hour each week (time TBA).

### ***TEXTBOOKS***

Davies NB, JR Krebs & SA West. 2012. *Introduction to Behavioral Ecology*, 4th Ed. Oxford: Wiley-Blackwell. You can download the ebook from the library with this link:  
<http://ebookcentral.proquest.com.ezproxy.lib.utah.edu/lib/utah/detail.action?docID=862786>

Hrdy SB. 1999. *Mother Nature: maternal instincts and how they shape the human species*. New York: Ballantine Books.

### ***ADDITIONAL READINGS (Marriott electronic reserve)***

You can access course reserves at the Course Reserves tab on the [Marriot Library Website](#) and searching for Hawkes, or the course name, or course number and section ([ANTH 4461-001](#) or [ANTH 4461-001](#)). More information on using course reserves is in Course Reserve "How to Guide," which gives a walkthrough that explains searching courses, filtering courses and how to access copyrighted material from off campus.

**Author/date citations in the reading assignment columns (beginning on p 3) identify the paper assigned for that day/topic. Match those to the full citations for the papers below.**

<b><u>Final Exam: Wednesday December 11</u></b> <b><u>10:30 am – 12:30 pm</u></b>			

Department and University Regulations

ADA Statement: The University of Utah seeks to provide equal access to its programs, services and activities for Center for Teaching & Learning Excellence people with disabilities. If you will need accommodations in the class, reasonable prior notice needs to be given to the Center for Disability Services, 162 Olpin Union Building, 581-5020 (V/TDD). CDS will work with you and the instructor to make arrangements for accommodations. All information in this course can be made available in alternative format with prior notification to the Center for Disability Services.

Safety Statement: The University of Utah values the safety of all campus community members. To report suspicious activity or to request a courtesy escort, call campus police at 801-585-COPS (801-585-2677). You will receive important emergency alerts and safety messages regarding campus safety via text message. For more information regarding safety and to view available training resources, including helpful videos, visit [safeu.utah.edu](http://safeu.utah.edu).

Addressing Sexual Misconduct: Title IX makes it clear that violence and harassment based on sex and gender (which includes sexual orientation and gender identity/expression) is a Civil Rights offense subject to the same kinds of accountability and the same kinds of support applied to offenses against other protected categories such as race, national origin, color, religion, age, status as a person with a disability, veterans status or genetic information. If you or someone you know has been harassed or assaulted, you are encouraged to report it to the Title IX Coordinator in the Office of Equal Opportunity and Affirmative Action, 135 Park Building, 801-581-8365, or the Office of the Dean of Students, 270 Union Building, 801-581-7066. For support and confidential consultation, contact the Center for Student Wellness, 426 SSB, 801-581-7776.

Wellness Statement: Personal concerns such as stress, anxiety, relationship difficulties, depression, cross-cultural differences, etc., can interfere with a student's ability to succeed and thrive at the University of Utah. For helpful resources contact the Center for Student Wellness ([www.wellness.utah.edu](http://www.wellness.utah.edu); 801-581-7776).

Student Code: (Policy 6-400) All students are expected to maintain professional behavior in the classroom setting, according to the Student Code (<http://regulations.utah.edu/academics/6-400.php>). Students have specific rights in the classroom as detailed in Section II of the Code. The Code also specifies standards of behavior (Section III) and academic conduct (Section V). Students must adhere to generally accepted standards of academic honesty, including but not limited to refraining from cheating, plagiarizing, research misconduct, misrepresenting one's work, and/or inappropriately collaborating" (Section VB). According to Faculty Rules and Regulations, it is the faculty responsibility to enforce responsible classroom behaviors. Students have the right to appeal such action to the Student Behavior Committee.

Incomplete Policy: An "I" will only be given for work not completed because of circumstances beyond the student's control, providing the student is passing the course and needs to complete 20% or less of the work. Valid reasons for an "I" grade include: (a) An illness (documented by a medical statement) that precludes the ability of the student to perform; (b) an accident or situation that prevents the student from physically being present (documentation may be required); (c) Extreme emotional or other mental circumstances that are severe enough to interfere with a student's normal academic performance. If you do receive an "I", do not register for the course again. You must complete the required work in the time agreed by you and the instructor. If the work is not completed within one year, the grade will change to an "E". Faculty will not accept additional work to change the grade after that one-year period. If student's have a problem with a course, please deal with it immediately. It is the student's responsibility to contact instructors and submit necessary forms. If you delay, your instructor may have left the University or be out of the country. In such a case, you may find that there is nothing the Department can do.

Repeating a Course: Any course taken at the University may be repeated. If you wish to attend a class again, you must register for it and pay tuition for that semester. Note that some courses may be taught infrequently or discontinued. Note: The syllabus is not a binding legal contract. It may be modified by the instructor when the student is given reasonable notice of the modification.
