

# Affordable Housing Workshop

## CMP 4280/6280

Summer 2020  
Tues: 6–9:30pm  
Thomas Eddington (AICP, ASLA)

This workshop provides an opportunity for students to learn about current approaches to address affordable/workforce housing and to explore why specific approaches may be successful in smaller communities but less so in larger and more complex regions. The workshop will explore the ongoing housing challenges that confront the Wasatch Back in Utah (Park City, Heber City, the Town of Hideout, Summit County and Wasatch County).
