Course Description

Criminal Justice is a huge topic. The basic aim of the course is to present an overview of the criminal justice system in the USA: its principles and goals, its organization, its personnel, its policies, and its impacts. We will briefly touch on perspectives of justice and the various theories that attempt to explain crime. We will also address issues relating to race, ethnicity, class, and gender which have been historically neglected. Should you choose a degree in Criminology/Criminal Justice, the courses you can take later will explore each of the major sub-parts of the system (law, police, courts, corrections) in much greater depth and detail.

Course Goals and Objectives

After completing this course, students should be able to recognize, understand, and think critically about issues relating to criminal justice. Additionally, students should be able to apply concepts covered in the course to their encounters with criminal justice (via the media, through personal experience, and so on). Specific learning objectives include:

- Understand the conceptual and theoretical foundation of the American criminal justice system
- Understand the criminal justice process, function, and organization (including the relationship and interactions among) of the three major criminal justice components— police, courts, and corrections
- Differentiate between what is fact and what is fiction concerning the criminal justice system
- Be aware of some of the relevant issues (e.g., racial, ethnic, and gender disparities) being faced by US criminal justice institutions today.

Course Work

Midterm Exam:	110 points	
Final Exam:	120 points	
Quizzes (5):	100 points	20 points each
Writing Assignments (2):	50 points	25 points each
Discussions (12):	120 points	10 points each
Total points:	500	

Midterm and Final: Exam dates are announced in the syllabus, but the instructor may move the test dates according to the progress made in class. The exams will cover materials from the textbook and lectures. Each exam will consist of (but not limited to) multiple-choice questions, true/false questions, and short answers. The exams are cumulative. For the midterm exam, students will have 80 minutes to take the exam. For the final exam, students will have 90 minutes to take the exam.

Writing Assignments: 2 writing assignments will be assigned throughout the semester. These assignments will require you to answer specific questions and for the most part will not require outside research or resources. Each assignment should be submitted online through course space, using the Assignments tool. All assignments should be between 350 and 500 words (no longer than two pages, 12 fonts, double-spaced).

Quizzes: There will be 5 quizzes assigned over the course of the semester. These quizzes are to test your understanding of the topics covered, and will be simple and no-sweat. The questions in these quizzes are derived from both the slides (lectures) and the book chapters, and will be multiple-choice and true or false questions.

Discussions: For each substantive week of the course, there will be a series of online discussions regarding the course material (the online discussion topics may involve the ones that are discussed in the synchronous classes on Thursdays). The object of these discussions is not to test you on your reading of each section's material. Rather, these discussions are intended to allow you to discuss your thoughts and opinions relating to the material and learn from each other.

In order to receive full credit for each section's discussion, you will need to post at least three (3) comments. Of these three comments, one must be a new topic/thread, and the other two should be responses to other people's comments. Each of these comments should be at least 60 words. Of course, you are more than welcome to make more than three comments each week and have over 60 words per comment if you find that you have more that you want to say. Your initial comment must be posted by the Wednesday of that week so that your classmates have a chance to respond. Although you do have specific requirements that you must meet for each discussion, I will be looking more for the quality of your comments than for the sheer quantity of them. Given the nature of the discussion assignment, participation (posting comments) cannot be make up if you miss the due date.

Regarding Discussion Activity Posts: The discussion forum is an important part of this course and a vital component of our online community—therefore I expect discussion posts to reflect thoughtful and critical thinking regarding the notes and readings. Challenge each other, but do so respectfully. It is of utmost importance that each student respects the thoughts of their peers.

Extra Credit: There will be one opportunity for extra credit during the semester. Extra credit assignment will be worth 5 points.

Grading Scale:

Grade	Points Needed
A	460-500 points
A-	450-459.5 points
B+	440-449.5 points
B	410-439.5 points
