

Fall 2021

# Planning and Designing for Walking and Bicycling

CMP 4700 / CMP 6700

Thomas Millar, [thomasomillar@gmail.com](mailto:thomasomillar@gmail.com)

Tu / 6:00p - 9:00p

Explore walking and bicycling (active transportation) with an emphasis on technical standards, design, and engineering, as well as the relationship with urban design, land use and, transportation planning. Students learn about the benefits of active transportation, successful programs, implementation strategies, community education and funding sources.
