

Fall 2021

Lightscapes

CMP 3850

Students will learn about the emerging research on artificial light exposure and its impact on human health, animal health, public safety, and our loss of access to the night skies in the majority of the developed world.

For more information on Dark Sky Studies: <http://plan.cap.utah.edu/dark-sky-studies-minor/>

CMP3850 is a SUSC course and counts towards the Undergraduate Sustainability Certificate
