

Fall 2021

# Green Communities

CMP 4380 / CMP 6380

**Alessandro Rigolon**, [alessandro.rigolon@utah.edu](mailto:alessandro.rigolon@utah.edu)

**TuTh / 12:25p - 1:45p**

This course provides students with a working vocabulary of the design processes and integrated, holistic ways of imagining how evolving Green Communities or Eco-Cities are formed and perform. Using a case study method, the class explores successful transformations of cities worldwide that have changed the ways they are adapting to new understanding and technologies for building and managing sustainable places.

This is a SUSC course and counts towards the Undergraduate and Graduate Sustainability Certificates

City and  
Metropolitan  
Planning
