

Syllabus for Math 1220-006

Calculus II, Spring 2022

Course: Math 1220-006 (Calculus II).

Course Website: We use Canvas: <https://gate.acs.utah.edu/>. To log in, use the same student ID and password that you use for Campus Information System.

Class Time: Mondays, Tuesdays, Wednesdays, and Fridays 2:00pm - 2:50pm.

Class Location: LCB 219.

Instructor: Keyvan Yaghmayi.

Email: yaghmayi@math.utah.edu.

Office: JWB 104.

Office Hours: I will hold office hours both online and in-person:

- Online: Every Monday, 11am - 11:50am (Zoom link is available in Canvas)
- In-person: Every Wednesday, 11am - 11:50am, in my office JWB 104
- Or by appointment. Please email me yaghmayi@math.utah.edu.

Textbook: Calculus, with Differential Equations, by Varberg, Purcell, and Rigdon, 9th edition published by Pearson. ISBN-10: 0132306336 — ISBN-13: 978-0132306331. Before buying the textbook, please read “Calculus Textbook Information” file in Canvas or visit <http://www.math.utah.edu/resources/bookinfo.php>. Any 9th edition book is fine.

Important Dates: Classes begin Monday, January 10th. The last day to add, drop, or audit classes is Friday, January 21st. The last day to withdraw is Friday, March 4th. Last day to reverse CR/NC option is Friday, April 22nd. *Final Exam* is on Monday, May 2nd, 1:00pm - 3:00pm, in classroom LCB 219.

Prerequisites: “C” or better in (Math 1210 or Math 1250 or Math 1270 or Math 1311 or Math 1310) or AP Calculus AB score of at least 4 or AP Calculus BC score of at least 3 or IB higher level math score of at least 5.

Course Information: Math 1220 Calculus II is a 4 credit course.

Course Description: Geometric applications of the integral, logarithmic, and exponential functions, techniques of integration, conic sections, improper integrals, numerical approximation techniques, infinite series and power series expansions, differential equations (continued).

Expected Learning Outcomes: Upon successful completion of this course, a student should be able to:

1. Compute derivatives and integrals for exponential, logarithmic, hyperbolic functions, and inverse trigonometric functions.
2. Integrate integrable functions using integration by parts, u-substitution, trigonometric substitutions, rationalizing substitutions, partial fraction decomposition, and trigonometric identities. This includes knowing which techniques to apply to a given integral.
3. Use L’Hopital’s Rule to calculate indeterminate-type limits and also know what limits are the non-indeterminate forms and how to compute those limits.
4. Compute improper integrals.

5. Understand the difference between an infinite sequence and infinite series and determine if a sequence converges or diverges.
6. Determine whether or not an infinite series of numbers converges or diverges using a variety of tests.
7. Understand what it means for a Power Series to converge or diverge and be able to find the Taylor Series for a given function. Determine how closely a Taylor polynomial approximates a function using Taylor's Remainder Theorem.
8. Differentiate and integrate functions in polar coordinates.

Course Roadmap Week-by-Week: Below is an outline and rough schedule of the sections and topics that we will cover in this course:

Week 1: 6.1 The Natural Logarithm Function, 6.2 Inverse Functions and Their Derivatives.

Week 2: 6.3 The Natural Exponential Function, 6.4 General Exponential & Logarithmic Function, 6.5 Exponential Growth and Decay. **Monday, January 17 is Martin Luther King Day Holiday.** **Friday, January 21 is the last day to drop.**

Week 3: 6.6 First-Order Linear Differential Equations, 6.7 Approximations for Differential Equations, 6.8 The Inverse Trig Functions & Their Derivatives.

Week 4: 6.9 The Hyperbolic Functions & Their Inverses, 7.1 Basic Integration Rules, 7.2 Integration by Parts.

Week 5: 7.3 Some Trigonometric Integrals, 7.4 Rationalizing Substitutions.

Week 6: 7.5 Integration of Rational Functions Using Partial Fractions, Review for Midterm 1. **Midterm 1 is on Wednesday, February 16th, on Material covered in Weeks 1-5.**

Week 7: 7.6 Strategies for Integration, 8.1 Indeterminate Forms of Type 0/0, 8.2 Other Indeterminate Forms, **Monday, February 21 is Presidents' Day Holiday.**

Week 8: 8.3 Improper Integrals: Infinite Limits of Integration, 8.4 Improper Integrals: Infinite Integrands, 9.1 Infinite Sequences. **Friday, March 4 is the last day to withdraw.**

Spring Break: March, 6th - March, 13th

Week 9: 9.2 Infinite Series, 9.3 Positive Series: The Integral Test.

Week 10: 9.4 Positive Series: Other Tests, 9.5 Alternating Series, Absolute Convergence, and Conditional Convergence.

Week 11: 9.6 Power Series, Review for Midterm 2. **Midterm 2 is on Wednesday, March 30th, on Material covered in Weeks 6-10.**

Week 12: 9.7 Operations on Power Series, 9.8 Taylor and Maclaurin Series.

Week 13: 9.9 The Taylor Approximation to a Function, 10.5 The Polar Coordinate System.

Week 14: 10.6 Graphs of Polar Equations, 10.7 Calculus in Polar Coordinates, **Friday, April 22 is the last day to reverse CR/NC option.**

Week 15: Review for the Final Exam. **Classes end on Tuesday, April 26. Final Exam is on Monday, May 2nd, 1:00pm - 3:00pm. It is Comprehensive.**

Modules: To be organized, I will create "Modules" in Canvas for every week. The module is going to have four parts: (1) class notes (2) lecture videos (3) announcements and discussions (4) homework assignments and quizzes (and exams).

Homework: Homework assignments and due dates will be posted on Canvas regularly. The problems will be taken from the textbook. You should write them on paper, scan and create a single PDF file of your work, then upload it into the Canvas. Please scan and don't take photo. You don't need a scanner; there are directions in Canvas for using apps in your smart phone as scanner. Scanning is easier, faster, and produces higher quality results.

I encourage you to discuss your homework problems with one another, ask help from tutors in the *math center* (see below), or talk to me during office hours. The other way that you can get help with homework assignments (and quizzes) is posting discussions in Canvas.

Your homework assignments will be graded in Canvas. At the end of the semester, the lowest homework score will be dropped.

Quizzes: We will have take-home (group) quizzes on the material that already has been taught and covered by homework assignments. I will make quizzes available by Wednesdays 11:59pm and they are due Fridays at 11:59pm. There will be 2-3 questions in every quiz. You print, answer questions, scan and upload the PDF file into Gradescope (there are directions on Canvas for those who don't have access to printer and/or scanner). Your quizzes will be graded in Gradescope.

You are encouraged to work on quizzes within small groups of 3 or 4. You would discuss your possible solutions within the group and then write your answer based on your own understanding. Working in groups is encouraged, but it is "individual responsibility" to complete and submit quizzes. Everyone writes only his/her name on the quiz paper. At the end of the semester, your lowest quiz score will be dropped.

Exams: There will be two midterms along with a "comprehensive" final exam. Exams are in-person, in our classroom LCB 219, during class time.

Midterm 1: Wednesday, February 16, 2:00pm - 2:50pm, on material we cover in Weeks 1-5

Midterm 2: Wednesday, March 30, 2:00pm - 2:50pm, on material we cover in Weeks 6-10

Final Exam: Monday, May 2, 1:00pm - 3:00pm, comprehensive

It is essential that you show all your work. Credit will not be given without the proper work and partial credit will be awarded if you show correct steps even if you do not obtain the final correct number.

Grading: The grades will be calculated as follows:

Homework 15%

Quizzes 20%

Midterm 20%

Midterm 20%

Final Exam 25%

The grade scale will be the usual: A (93-100), A- (90-92), B+ (87-89), B (83-86), B- (80-82), C+ (77-79), C (73-76), C- (70-72), D+ (67-69), D (63-66), D- (60-62), E (0-59). If I do need to curve the grades, I will simply shift your overall percentage up by a few points (whatever is necessary).

COVID-19 Considerations: University leadership urges all faculty, students, and staff to model the vaccination, testing, and masking behaviors we want to see in our campus community. These include:

- **Vaccination:** Get a COVID-19 vaccination if you have not already done so. Vaccination is proving highly effective in preventing severe COVID-19 symptoms, hospitalization and death from coronavirus. Vaccination is the single best way to stop this COVID resurgence in its tracks. Visit <http://mychart.med.utah.edu/>, or <http://vaccines.gov/> to schedule your vaccination.
- **Masking:** While masks are no longer required outside of Health Sciences facilities, UTA buses and campus shuttles, CDC guidelines now call for everyone to wear face masks indoors. Check the CDC website periodically for masking updates: <https://www.cdc.gov/coronavirus/2019-ncov/vaccines/fully-vaccinated-guidance.html>
- **Testing:** If you are not yet vaccinated, get weekly asymptomatic coronavirus tests. This is a helpful way to protect yourself and those around you because asymptomatic individuals can unknowingly spread the coronavirus to others. Saliva based testing is available at <https://healthcare.utah.edu/coronavirus/testing/>
- **Self-Reporting:** All of us, including faculty, students, and staff, must self-report if we test positive for COVID-19 via this website: <https://coronavirus.utah.edu/>.

Update - January 7th, 2022 - **U of U ALERT:** <https://alert.utah.edu/covid/>.

Tutoring and Extra Help:

- **Math Student Center:** The math tutoring center is available free of charge to all university students. The tutoring center is open Monday-Thursday 8:00am-8:00pm, and Friday 8:00am-6:00pm. Please take advantage of the tutoring center as needed throughout the semester. Their website is: <http://www.math.utah.edu/undergraduate/mathcenter.php>
- **ASUU Learning Center:** Home of tutoring services here at the University of Utah. If you need help understanding course content or want to develop better strategies for academic success, then check out their website: <http://tutoringcenter.utah.edu>. They offer inexpensive tutoring.
- **Department of Mathematics Lecture Videos:** They have put together a complete set of lecture videos for several classes, including Calculus II. You can find them here: <http://www.math.utah.edu/lectures/>
- **Khan Academy:** It is a non-profit, free, educational organization for anyone, anywhere. They have some amazing videos in the Youtube. If you're interested, check out: <https://www.khanacademy.org/>
- **Discord and/or GroupMe:** You are welcome to create a page in these apps for our class and help each other with questions in HW assignments.

Some Policies and Comments:

- Please check Canvas regularly (every day or every other day). I will use the following features of Canvas frequently: Pages, Assignments, Zoom, Announcements, Modules, Discussions, Gradescope, Files, and Grades.
- **Late and Missing Assignments Policy:** The course is designed to provide flexibility in the case of a few times. But in general, you are expected to turn things in on time and take quizzes and exams at the times given. If there are extenuating circumstances, please contact me in a timely way to discuss alternatives. If the situation is one that can be documented, you may be asked to provide documentation. The University of Utah student code allows for making up quizzes or exams in advance for “officially sanctioned University activities, or government obligations, or religious obligations”. Please contact me at least one week in advance of any such obligations to arrange accommodation.
- For quizzes and exams, you are allowed to use a “scientific calculator”. Other types of calculators like programmable calculators or graphing calculators are not allowed. I will make tests and quizzes to evaluate your mathematical skills and not your calculator skills. For homework assignments, it is okay that you check your answer by advanced calculators or other preferred technology.
- If there is something that I want to inform you, I will reach out to you by emailing you through Canvas. That is usually your default UMail address (uNID@utah.edu) that you have in the CIS. If you are using other emails more frequently than your UMail, then you can set your UMail to forward to your preferred email address. Also the fastest way to reach me is my email: yaghmai@math.utah.edu.
- If your preferred name is different than your legal first name (the preferred name you chose does indeed show up in CIS on my roll sheet, but not yet in Canvas), please log into Canvas and go to “Account” (on far left) then “Settings” and change your “Display Name” to be the name you prefer to be addressed by. This will help me greatly to know students’ names, and to address you correctly when responding to Canvas comments.
- If you have any thoughts, ideas, or suggestion, please feel free to contact me. I promise to do everything in my power to help.

University of Utah Resources and Policies:

- **Veterans Support Center:** The Center is staffed by student Veterans who are committed to providing their fellow Veterans with the most useful and current information available. The Mission of the Veteran Support Center is to improve and enhance the success of student Veterans; to help them receive the benefits they deserve; to serve as a liaison between the Veteran student community and the University; and to increase their academic success. Additionally to provide an opportunity to continue the relationships built through the service in civilian life. Please see <https://veteranscenter.utah.edu/>

- **Center for Disability & Access:** is dedicated to students with disabilities by providing the opportunity for success and equal access at the University of Utah. They are committed to providing reasonable accommodations as outlined by Federal and State law. The Center for Disability & Access (CDA) also strive to create an inclusive, safe and respectful environment. By promoting awareness, knowledge and equity, they aspire to impact positive change within individuals and the campus community. Please visit <http://disability.utah.edu/> for the latest information.
- **A.D.A. Statement:** The University of Utah seeks to provide equal access to its programs, services and activities for people with disabilities. If you will need accommodations in the class, reasonable prior notice needs to be given to the Center for Disability & Access, 162 Olpin Union Building, 801-581-5020. CDA will work with you and the instructor to make arrangements for accommodations. All written information in this course can be made available in alternative format with prior notification to the Center for Disability & Access.
- **Campus Safety:** The University of Utah values the safety of all campus community members. To report suspicious activity or to request a courtesy escort, call campus police at 801-585-COPS (801-585-2677). You will receive important emergency alerts and safety messages regarding campus safety via text message. For more information regarding safety and to view available training resources, including helpful videos, visit <https://safeu.utah.edu/>.
- **Student Responsibilities:** All students are expected to maintain professional behavior in the classroom setting, according to the Student Code, spelled out in the Student Handbook. You have specific rights in the classroom as detailed in Article III of the Code. The Code also specifies proscribed conduct (Article XI) that involves cheating on tests, collusion, fraud, theft, etc. Students should read the Code carefully and know you are responsible for the content. According to Faculty Rules and Regulations, it is the faculty responsibility to enforce responsible classroom behaviors, beginning with verbal warnings and progressing to dismissal from class and a failing grade. Students have the right to appeal such action to the Student Behavior Committee. <http://regulations.utah.edu/academics/6-400.php>
- **Women's Resource Center:** The Women's Resource Center (WRC) at the University of Utah serves as the central resource for educational and support services for women. Honoring the complexities of women's identities, the WRC facilitates choices and changes through programs, counseling, and training grounded in a commitment to advance social justice and equality. <https://womenscenter.utah.edu/>
- **Wellness Statement:** Personal concerns such as stress, anxiety, relationship difficulties, depression, cross-cultural differences, etc., can interfere with a student's ability to succeed and thrive at the University of Utah. For helpful resources contact the Center for Student Wellness at <https://wellness.utah.edu/> or 801-581-7776.
- **Addressing Sexual Misconduct:** Title IX makes it clear that violence and harassment based on sex and gender (which includes sexual orientation and gender identity/expression) is a Civil Rights offense subject to the same kinds of accountability and the same kinds of support applied to offenses against other protected categories such as race, national origin, color, religion, age, status as a person with a disability, veteran's status or genetic information. If you or someone you know has been harassed or assaulted on the basis of your

sex, office for equal opportunity and affirmative action including sexual orientation or gender identity/expression, you are encouraged to report it to the University's Title IX Coordinator; Director, office of Equal Opportunity and Affirmative Action, 135 Park Building, 801-581-8365, <https://oeo.utah.edu/contact-us/index.php> or to the Office of the Dean of Students, 270 Union Building, 801-581-7066, <https://deanofstudents.utah.edu/>. For support and confidential consultation, contact the Center for Student Wellness, 426 SSB, 801-581-7776. To report to police, contact the Department of Public Safety, 801-585-2677(COPS), <https://police.utah.edu/>.

- **Student Names and Personal Pronouns:** Class rosters are provided to the instructor with the students legal name as well as preferred first name (if previously entered by you in the Student Profile section of your CIS account). While CIS refers to this as merely a preference, I will honor you by referring to you with the name and pronoun that feels best for you in class, on papers, exams, group projects, etc. Please advise me of any name or pronoun changes (and update CIS) so I can help create a learning environment in which you, your name, and your pronoun will be respected. If you need assistance getting your preferred name on your U-ID card, please visit the LGBT Resource Center Room 409 in the Olpin Union Building, or email bpeacock@sa.utah.edu to schedule a time to drop by. The LGBT Resource Center hours are M-F 8am-5pm, and 8am-6pm on Tuesdays.

Disclaimer: This syllabus is meant to serve as an outline and guide for our course. All information on this syllabus is subject to change. If any changes on this syllabus, course policies or course outline arise throughout the semester, then I will announce it in class and post it on Canvas.
