## **Class Policies:**

### **Class structure:**

We will have a review, lectures, and demonstrations. You must be on time to participate in lectures, in-class assignments, and discussions. The lectures and discussions will not be repeated; however, I will post the slide shows in Canvas. Make sure to check it daily. It would be best to spend time outside of class preparing for in-class discussions and demonstrations. I provide many wiki pages in Canvas to help you with out-of-class time usage.

### **University Attendance Policy:**

"You may not attend a University course unless you are officially registered, and your name appears on the class roll. The University expects regular attendance at all class meetings. You are not automatically dropped from your classes if you do not attend. You must officially drop your classes by the published deadline in the academic calendar to avoid a "W" on your record. You are responsible for satisfying the entire range of academic objectives, requirements, and prerequisites as defined by the instructor. If you miss the first 2 class meetings, or if you have not taken the appropriate requisites, you may be required to withdraw from the course. If you are absent from class to participate in officially sanctioned University activities (e.g., band, debate, student government, intercollegiate athletics), religious obligations, or with instructor's approval, you will be permitted to make up both assignments and examinations."

### **My Attendance Policy:**

Regular attendance is a requirement of this course. Consistent and prompt attendance develops responsible, professional behavior and ensures students have access to the full range of experiences and information necessary to complete class assignments and acquire the skills and knowledge emphasized in university education.

- Activities such as doctor appointments, advisor conferences, and employment should not be scheduled in conflict with class time.
- Attendance accommodations may be provided for those with a conflict involving religious/spiritual observances, documented and University-sanctioned activities (e.g., athletics, debate tournaments, etc.), and short-term family or medical-related emergencies. Students involved in excused University-sanctioned activities must provide written documentation from the appropriate advisor, and the student must alert the instructor before missing class.

- Regardless of the reasons for any absences, students are expected to complete all coursework on time and meet all deadlines. For in-class work, if it is an authorized absence for the list mentioned above, we will work out a new due date for you.
- A physician must verify the prolonged illness and may require the student to withdraw from the class if the student cannot complete work in a comprehensive and timely manner (see "Incomplete" under Grade Descriptions.)

### **Tardiness Policy:**

Each student must be in class on time, but I understand that life happens. Please be courteous and do not disrupt the class if you come in late.

### **Faculty and Student Responsibilities:**

All students are expected to maintain professional behavior in the classroom setting, according to the Student Code (Policy 6-400), spelled out in the Student Handbook. Students have specific rights in the classroom, as detailed in Article III of the Code. The Code also specifies proscribed conduct (Article XI) that involves cheating on tests, plagiarism, or collusion, as well as fraud, theft, etc. Students should read the Code carefully and know they are responsible for the content. According to Faculty Rules and Regulations (Policy 6-316), it is the faculty's responsibility to enforce responsible classroom behaviors, beginning with verbal warnings and progressing to dismissal from class and a failing grade. Students have the right to appeal such action to the Student Behavior Committee.

### **Computer Lab Conduct Policy:**

This classroom is a computer lab, and the temptation to spend the whole class time checking email, social media, etc., is strong. Go ahead if you feel your tuition dollars are worth wasting time and squandering your education. If you are not participating, I will note it and call on you. This lack of attentiveness will affect your participation grade and indirectly impact how you execute assignments. If you were not paying attention, you may NOT ask me later to repeat what I just went over. If your actions disrupt the rest of the class, I will ask you to stop politely. If it happens a second time, I'll ask you leave the classroom.

### **My Plagiarism Policy:**

For specific assignments, I may use the website Turnitin to determine if a student is potentially plagiarizing. I adjust how much the program scans and accepts as non-plagiarized information. If I see that your document has more than 5% plagiarized material, I will ask you to redo the project by a specific date and time. If you complete it by the new date and time, I will grade it, but you will lose 30% of the total possible points. If you do not correct the errors, I am obligated to report your violation to the University. I report you to my department chairperson, and we will determine if this should escalate to the College of Fine Arts Dean's office to be reviewed by the Associate Dean of Students for the college.

**Defining Plagiarism:** "Plagiarism means the intentional unacknowledged use or incorporation of any other person's work in, or as a basis for, one's own work offered for academic consideration or credit or for public presentation. Plagiarism includes, but is not limited to, representing as one's own, without attribution, any other individual's words, phrasing, ideas, the sequence of ideas, information, or any other mode or content of expression." (Policy 6-400, Student Code).

### **Cell Phones:**

All cell phones must always be TURNED OFF (this includes alarms on your phone or laptop) during the class. The student will be asked to leave if I hear a cell phone during the lecture. If you need to have your cell phone on during the lecture, please let me know before class and sit near the back of the room so you can leave quietly.

### **Accommodations Policy:**

Some of the lectures, discussions, readings, or other materials in this course may include information, ideas, and/or theories that conflict with the core beliefs of some students. For example, some of the material we discuss/view may be rated "mature" and/or deal with issues such as sexuality and violence. These are appropriate topics for a Department of Art & Art History class. They are necessary to understand the histories and practices in the arts fully. Please review the syllabus

carefully to ensure this is a course you are committed to taking. Please also refer to the University of Utah Academic Policy 6-100-3-Q: <http://regulations.utah.edu/academics/6-100.php>.

If you have accommodations through the Center for Disability & Access, please have them email me the letter as soon as possible so I know how to help you succeed in this course. You must have them email me a letter for these types of accommodations.

## Assignments:

You will find all the assignments and class schedule in Canvas. Note that the schedule can change as the semester progresses. If I need to change the schedule, I'll inform the class via a Canvas announcement.

**Technical (Skillset):** A few technical assignments help you prepare for your projects. They are not worth many points, but they will show you the basics of using the websites and software we will discuss in class. These assignments let me know how well you understand the tools provided to you and your utilization of them in your creative/intellectual processes. There will also be a couple of grammar and research refresher assignments. These assignments are in-class-only, meaning you must be in class to complete them.

- Web applications – we will use a couple of web tools/websites to help with research and demonstrate your ability to use these tools.
  - ChatGPT and other AI text-generating tools
  - [Noodle Tools](#)
  - [Marriott Library](#)
  - [Chicago Manual of Style](#)
  - Other websites we will discuss.
    - [Sway](#) – part of Microsoft 365
    - [Adobe Express](#) – part of Adobe Creative Cloud
    - [Sites](#) – Part of Google G Suite (UofU Gcloud)
- Software – the one main program we will review is part of the Adobe Create Cloud, accessible to all students. These assignments show me your understanding of the software and how you will apply this knowledge to your projects.
  - InDesign

**Writing:** There will be several written assignments. We will explore the writing process and how to utilize it in a Web 2.0 environment for each writing assignment. For the personal projects, you'll be required to submit a thesis/outlines or rough drafts and the final documents. We will conduct peer reviews on several rough drafts to receive feedback and help you improve your writing skills.

- Personal Essays – You will be creating several different styles of essays.
  - A researched-based hypertext/interactive narrative.
  - A new version of an argumentative paper.
  - A research-based, appropriated visual narrative.
- Critical Analysis
  - iWARS – There are five of these throughout the semester.

**Going to Intellectual WAR (iWAR):** These are several analytical reading/writing assignments conducted via Canvas' discussion board. These are three-part assignments. Prior to class on Tuesday, you will set aside time to write for 20 minutes stating what you have just read, posting your thoughts, ideas, and reactions to the readings. You will also post a question for responses from your classmates. After the class discussion on Tuesday, you will answer two questions incorporating interactive elements to help support your answers. The Answers are due by the end of Wednesday. By the end of Thursday of that week, you will then respond to one of your question's answers.

**Participation:** Participation points are based on iWAR and all class discussions, peer reviews, teamwork, presentation reviews, and assignments.

## Grading Policies:

### Late Work:

Each written assignment **MUST** be turned in on time to receive full credit. **The following assignments MUST be turned in on time: class/peer-review participation, and your final project.** For all other assignments, if late, a deduction will be applied based on the possible total points of the final graded rubric total. If you submit your work up to two days late, 15% will be deducted, and up to four days late, 30% will be deducted. After the fourth day, the assignment will not be accepted, and you will earn zero points.

Each iWAR assignment has three due dates, so keep that in mind.

### Resubmitting Work:

If a student is not happy with the grade received for an individual assignment (that includes iWARS), the assignment may be reworked and turned in again for re-grading. However, only assignments turned in on time are eligible for a re-grade. You can submit almost all assignments for a re-grade only two times. The final project are not eligible for regarding. **You cannot submit a rough draft for re-grading after the final version's due date.**

If a student wishes to discuss grades, please set up an appointment to discuss the situation.

### Grading Criteria:

**Writing Assignments:** We will discuss the criteria for each written assignment. If you do the minimum amount asked, you will earn a C. All written assignments are turned in digitally through Canvas and graded using a rubric. You will also be required to submit outlines/thesis or a rough draft for each assignment. These will be classified as separate assignments. Several of the rough drafts will be peer-reviewed. These assignments allow you to rework, rewrite, and perfect your final documents. You will have access to the rubric when the assignment is assigned so that you can see the grading criteria. Refer to the rubric if you have questions about what I am looking for with each assignment. For each assignment, the rubric will be different from the previous assignment.

**Technical (Skillsets):** These assignments are simple. If you do them correctly, you get points. Most of them do not have rubrics but are graded on a Complete/Incomplete system. These assignments **MUST** be turned in on time. As mentioned above, if you are late, you have four days to complete them. If I find errors, I'll mark it as incomplete and ask you to redo it. Once the errors have been corrected, I'll mark them as complete.

**iWAR:** For these assignments, you will analyze and respond to readings and discussions using Canvas' discussion boards. The details for the discussions are in Canvas. You will receive a graded rubric for each iWAR assignment.

### Class participation:

- Peer review/workshop/rough draft days. You will be graded on your participation if it is a class review day or a peer-review day. Depending on the type of review or workshop, each is graded using a rubric or a simple complete/incomplete system. Refer to the assignment details in Canvas. **The class reviews/workshops cannot be made up** unless you were absent for a school-sanctioned event.
- For iWAR discussions, you will be grading yourself and your fellow team members. After the last iWAR discussion, I will provide a grading form. You'll need to provide feedback on yourself and your fellow team members. I'll average out those grades.

**Weighted Grading Scale:**

Assignment	Percent of Grade
Intellectual WAR	35%
Personal Essays	35%
Technical	15%
Class Participation	15%

**Grading Standards:**

The final grade is determined by a total of all the points received throughout the semester.

University of Utah Academic Policy 6-100-3-G2 states, "The grade of I should be used only for a student who is passing the course and who needs to complete 20% or less of the course." Students receiving an I should be able to complete the coursework for the class without needing to attend any additional classes.
